

ABSTRACT

The measurement results judging means 80 judges whether or not the measurement of vital signal. In the case
5 where it has been judged that all of the measurements of the vital signal used for the measurement of such plurality of vital-information are normal, since the above-described plurality of vital-information are automatically output from the printer 58, the troublesome works of the printing
10 operation can be omitted, and in the case where it has been judged that the measurement of the vital signals used for the determination of at least one of the vital-information is not normal, the above-described vital-information is not output from the printer 58, therefore, unnecessary
15 vital-information can be prevented from being output from the printer 58.
